

RACERS

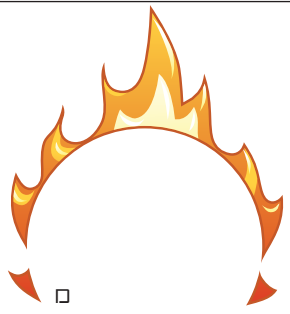

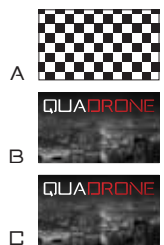

QUADRONE

ASSEMBLY MANUAL

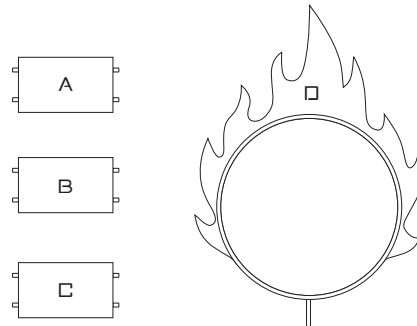

INCLUDES:

STICKERS

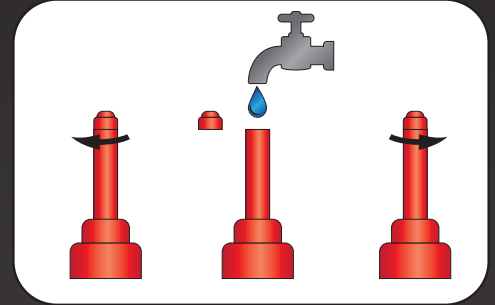

STICKER ASSEMBLY:

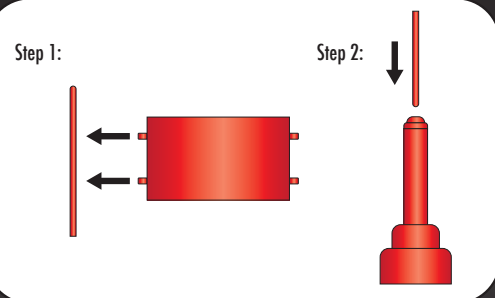

FILLING THE BASE

- Step 1:**
Remove the cap at the top of the base to open it. Twist counterclockwise to loosen.
- Step 2:**
Fill the base with either water or sand in order to weigh it down. That way, the base will stay upright during your races.
- Step 3:**
Refasten the cap when you fill the base. Rotate clockwise to tighten.
- Step 4:**
Be sure to empty your base when you are finished playing with your Races.
- Repeat steps for all bases.

ASSEMBLING THE FLAGS

- Step 1:**
Snap the 2 clips on the side of the flag to a pole. Repeat on the other side of the flag.
- Step 2:**
Insert the pole or flame in the base.
- Repeat steps for all flags.

Set up your flags and ring of fire around your house and see how fast you can fly to the finish line. Use your imagination to create a new, unique course every time you hit the racetrack. The possibilities are endless!

The Quadrone Racers Obstacle Course is best set up on a flat hard surface. Adult supervision recommended. Though this obstacle course is designed to be leak proof, it can not be guaranteed the flags will not leak if knocked over. Do not set flags up near electrical socket or near anything that would suffer water damage.
